

Positionsprofil

Our customer is an independent international Pharma company with its own R&D activities. Headquartered in Frankfurt, Germany, the family-owned firm with a 100 year-plus history is represented in more than 90 countries worldwide. Due to continuous growth, we are looking to fill the position of

Digital Innovation Product Owner (a) Pharma

YOUR CONTRIBUTION

As Digital Innovation Product Owner (a) you and the team are responsible for managing our journey of digitalization. The strategic planning and tactical execution of initiatives for the company's Therapeutics Digital Innovation Hub lies within your responsibility. Your detailed tasks are the following:

- Plan and manage agile product development lifecycles from discovery to delivery
- Building capabilities towards digitization of the company's Therapeutics customer offerings using a 'platform approach'
- Collaboration with internal and external teams by leading the development of our digital products
- Presenting your product vision using data and insights
- Pioneering and testing innovative concepts for customer research, product development and rapid prototyping.
- Helping develop truly innovative and user-centered digital health business models leveraged by data

YOUR PROFILE

- Bachelor's degree or higher in Business Management, Economics, or related STEM fields
- Professional experience in IT product management or consultancies
- Proficiency in using either tools for Ideation, Product Development or Agile/ Scrum
- Strong analytical skills and used to working with KPI tracking, Excel and Powerpoint
- Fluent business-English speaking and writing skills are required
- Excellent communication and presenting skills
- Entrepreneurial mindset focusing on growth, positive transformation and process improvement
- Self-driven, organized and detail-oriented personality

Positionsprofil

YOUR BENEFITS

- Permanent employment relationship with long-term career prospects
- High working time flexibility which enables a good work-life balance
- Attractive location with good transport links and modern, well-equipped workplaces
- Global family business with flat hierarchies and short decision processes
- Collaboration in multi-functional international teams
- Attractive compensation with comprehensive social benefits
